

I have recently heard that you are considering making changes to the way FM radio is heard in our community. In doing this it could affect how we can listen to the radio station K-LOVE. This radio station has been wonderful in its encouragement and wholesome songs.

I hear all the time of how kids from the local high school listen to K-LOVE and how much they enjoy it. These kids need all the help they can get in order to keep going in the right direction. They have so much peer pressure and see so many things on TV to contradict the way life should be. I know. I have 2 teenage daughters and coach a high school cheerleading squad and YMCA gymnastics team. I am totally amazed at times at the things these kids come up with. I believe that anything that is good should not be taken away from them. It is great to know that they are not listening to some of the songs today that have crazy messages.

In coaching my gymnastics team I like to play K-LOVE while the girls practice. I know that the music will be good and no one would be offended. I also listen to this station every day at work, at home and in my car. I understand that they have pastors ready to pray for anyone at anytime. I have not used this but I truly believe that it is a wonderful thing to have. So many people have no one to talk to or believe that no one cares. If they can hear K-LOVE and can talk to a pastor there... they will find a loving and caring person who is willing to listen and do the best to help them. I firmly believe in the power of prayer and know that this radio station does also. They are praying for the country, as well as a lot of other things.

I just think it would be terrible if my community and others would not be able to hear the word and songs from K-LOVE. There are so many other radio stations out there, that if someone didn't want to listen to it they could just change the channel. Why make it harder for those who like to listen to K-LOVE by allowing the new LPFM stations to take priority over current FM translator service? There is enough air space out there in order to listen to anything that we wish to listen to. Please don't take away the power of some radio stations by changing to LPFM stations.  
Thank you so much for your time.
